RMA Policy:

Pre-RMA Evaluation of Issue:

Buyer must notify Twik Engineering, by email of any defect or issue experienced with the product(s) by sending an email to info@example.com or calling 555-0100. Upon completion of the discrepancy evaluation, Twik will establish a recommended plan of action within 48 hours authorizing the issuance or rejection of an RMA request.

Signed RMA form, acknowledging RMA procedure, must be returned to Twik Engineering via email to: info@example.com, or RMA@example.com, or fax (555-0101) and a copy of this signed form must be enclosed within the return shipment.

Return Authorization Guidelines:

Returns require issuance of a Return Material Authorization (RMA) Number prior to shipping the merchandise to the factory. A pre-RMA evaluation discussion is required with Twik Engineering technical support team to obtain an RMA Number.
Upon issuance of an RMA, it is the customer's responsibility to sign and return the RMA by e-mail or fax.

Return Merchandise Instructions:

Once Twik receives a copy of the signed RMA procedure, Twik must receive the product at its factory within 60 days of issuance.
Please adhere to the following return instructions to avoid delay or rejection of the RMA.

- Return all product(s) using the original packaging
- **If the original packaging is unavailable, the product(s) must be securely package to ensure it reaches the Twik factory** without damage.
- The factory may refuse merchandise damaged due to poor packaging
- Enclose a copy of the signed RMA form in each package
- **Provide Twik Engineering with the tracking information for the shipment once available**

RMA Number: 261001 **Issued By:** Twik Engineering Website

Twik Engineering reserves the right to refuse any incoming shipment that does not adhere to the above guidelines.

Shipment Details and Additional Instructions:

- **Address Shipment To:**

Twik Engineering
Attn: Quality Control - RMA # 3605
100 Example Way
Springfield, ST 00000

- The RMA number must be clearly visible and written on the outside of the box
- Do not ship freight collect. Shipments marked freight collect may be refused and returned to sender
- Twik Engineering does not accept liability for any product lost or damaged in transit and recommends having insurance for the replacement value
- Product return shipments will only be accepted and evaluated with a signed RMA form
- **Buyer's failure to ship product to the factory within 60 days of issuance may result in an automatic cancellation of RMA Number. Consequently, Twik will not accept the RMA product beyond 60 days without re-issuance of a valid RMA numb**
- **Product warranty is null and void if the RMA products are not packaged properly and suffer additional damage in transit**

Twik Engineering will make all reasonable efforts to have a recommended plan of action established within five business days of receipt of merchandise. If covered under warranty, a plan of action will be submitted to the buyer for approval before moving forward.
If the repair work required is not covered under warranty, Twik Engineering will issue an "XXRMA" quotation indicating the issue, plan of action, and corresponding cost for repair. Should the Buyer decide not to move forward with repairs through Twik Solutions, Twik will charge an evaluation fee of up to $1,500.00, depending on the unit returned. Plus, the return shipping cost.
It is at the sole discretion of Twik Engineering, if the performance of the returned merchandise satisfies repair/replacement under the warranty policy. In no event shall Twik Engineering be liable for repair under warranty of merchandise which was damaged, misused, or modified, including any incidental or consequential damages.

Terms of Payment:

Terms of payment for RMAs are pre-paid in full at time of order. Any deviation from this is at the sole discretion of Twik Engineering. Repair work will only be authorized once full payment is received. Additionally, the buyer is responsible for costs to ship to and from the factory unless, after evaluation, the product is determined to qualify as a warranty failure.
Twik Engineering will make all reasonable efforts to have a recommended plan of action established within FIVE (5) days of receipt of the RMA product in-house. Failure of the customer to advise their disposition within 60 days of the evaluation report will be considered abandonment resulting in cannibalization of the unit.

Please sign the bottom of this page as acceptance of the RMA policy as outlined within this document. Include all pages of this RMA document with your return shipment and advise Twik Engineering with any tracking information as it becomes available.

IMPORTANT NOTICE:

Twik recommends that before returning equipment during the warranty period, verify the product with calibrated test equipment. This data should accompany the returned equipment. If equipment returned during the warranty period meets all original specifications, an evaluation fee will be assessed of up to $1,500 plus the cost of shipping.

It is customer's responsibility to advise the disposition within 60 days of evaluation report. Failure to advise disposition within 60 days, will result in cannibalization or elimination of that product at Twik discretion.

By signing below, I certify that I have read, and hereby agree to, the RMA terms and policy outlined herein.
